To  
University of Nevada, Las Vegas.,

I am writing to express my sincere interest in participating in the summer Internship at UNLV and to share my eagerness to join this program. My name is Ms.Suhani Ashish Kolhatkar, and I am currently pursuing Mechanical Engineering at COEP Tech University (formerly College Of Engineering Pune) .

I want to be a part of the Summer Internship at UNLV program because I want to engage myself in exploring the research culture of UNLV and want to build meaningful connections.

As a student I am passionate about research in the domain of Mechanical Engineering and Data Science. I would be glad to work under professors, carry out research work efficiently and continue it after the fellowship as well.

Through the Summer Internship at UNLV, my aim is to inculcate global level thinking, getting an idea of changes occurring in the world and exploring profiles where I exactly fit which will complement my academic studies.

Furthermore I am eager to interact with international peers, seniors and the students coming from diverse cultures. I am sure that it will broaden my perspective and build lasting connections that will support my personal and professional growth long after the program ends.

Thank you for considering my application. I look forward to the possibility of joining the Summer Internship at UNLV.

Sincerely,  
Suhani Ashish Kolhatkar
